Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Chen U.S. Patent 5,408,135.

Chen disclosed a swing device comprising a supporter (11); a seat (20) suspended on the supporter to swing in front and back directions; a permanent magnet (50) (see column 2, lines 57-59) installed in the seat as shown in Fig. 2; an electromagnet (40) installed to face the permanent magnet in a swing path to have the same polarity as that of the permanent magnet; wherein the electromagnet is selectively driven when the permanent magnet approaches, generating a repulsive force for the permanent magnet (see column 2, lines 45-52).

Allowable Subject Matter

Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The enclosed references are cited for interest.
